

New York Area tunnels, New York USA

The Port Authority of New York and New Jersey selected Citilog to supply a video-based Automatic Incident Detection solution for the Lincoln and Holland tunnels.

The Lincoln tunnel carries approximately 120,000 vehicles per day, making it one of the busiest vehicular tunnels in the world.

The Holland Tunnel carries approximately 90,000 vehicles a day.

The Video Detection Solution operates on the 116 cameras of the two tunnels and provides the respective tunnel traffic management centers with early-stopped vehicle detection.
